CAREER OBJECTIVES

Full-Stack Developer with hands-on experience in MERN stack, specializing in building scalable and responsive web applications. Proficient in Java with strong problem-solving skills demonstrated through in-depth knowledge of Data Structures and Algorithms. Eager to contribute technical expertise and coding enthusiasm to a dynamic software development team.

SKILLS

- **Programming Languages:** Core Java, Python, C.
- **Frontend Development:** React.js, Angular, HTML5, CSS3, JavaScript.
- **Backend Development:** Node.js, Express.js, PHP, RESTful APIs, JWT authentication.
- **Databases & DBMS:** SQL, MongoDB, DBMS Concepts.
- **DevOps & Tools:** Git, Postman, Figma, Docker, Kubernetes, VirtualBox.
- **Core Competencies:** Data Structures & Algorithms, API Integration, Problem Solving.
- **Other Technologies:** Blockchain Fundamentals, AI & Machine Learning, Cloud Computing.

EDUCATION

B.Tech Computer Science & Engineering - cgpa: 8.74 Srinivas University, Mukka, Mangaluru, Karnataka	Expected in March 2026
Senior Secondary (XII) Science YTSS PU College Yellapur, Karnataka - Percentage: 77.5%	2022
Secondary (X) YTSS Yellapur, Karnataka - Percentage: 78.56%	2020

PROJECTS

Phishing Simulation Tool MERN Stack EyeQ Dot Net (Internship) developed a phishing awareness platform using MongoDB, Express.js, React.js, and Node.js , enabling realistic phishing scenario simulations for user training. The project included integrating JWT-based authentication for secure access and building reusable UI components with Tailwind CSS , improving consistency and reducing development time by 25%.	May 2025 - Aug 2025
Construction Management System PHP Hackathon Project This system was designed to help construction companies manage project status, workforce, and finances. It supported real-time updates for over 20 task entries, improved monitoring efficiency by 40% , and reduced manual paperwork by implementing structured digital workflows.	Aug 2024 - Oct 2024
Voice Assistant Python Personal Project I created a Python-based voice assistant capable of processing more than 15 voice commands with over 90% accuracy . The assistant automated routine tasks and search operations, while optimized processing reduced response time by 35% .	Jan 2025 - Feb 2025

TRAININGS / CERTIFICATIONS

- **SQL and Relational Databases 101** - IBM Developer Skills Network - Issued:14/01/2025
- **AWS Cloud Foundations** - Amazon Web Services (AWS) – Issued: 31/01/2025
- **Java SE 21 Developer Professional** - Udemy – Issued: 28/07/2025
- **Data Science & Analytics Certificate** - HP Foundation – Issued: 31/12/2024
- **JavaScript Programming** -ETHNOTECH ACADEMIC SOLUTIONS PVT LTD, Mangalore- Issued: 19/08/2023

EXPERIENCE

Full-Stack Developer Intern EyeQ Dot Net, Mangalore [May 2025 - Aug 2025]
• Developed and optimized modules for a Phishing Simulation Tool using the MERN stack, contributing to a platform used by 50+ employees for cybersecurity awareness. • Implemented JWT authentication, secure cookies, and token handling, improving login security and reducing session issues by 30%. • Built 12+ responsive UI components using Tailwind CSS, enhancing page responsiveness and reducing load time by 20%. • Collaborated with a cybersecurity team in an offline real-time environment, resolving 10+ technical issues during testing and aligning features with industry practices.
