CAREER OBJECTIVES

Java Full Stack Developer with hands-on experience in building full-stack web applications using Java, Spring Boot, Angular, React.js, Node.js, REST APIs, and SQL databases. Skilled in backend development, authentication, debugging, and problem solving, with a strong interest in building scalable software solutions.

SKILLS

- **Programming Languages:** Java, Python, JavaScript, TypeScript.
- **Frontend Development:** React.js, Angular, Next.js, HTML5, CSS3.
- **Backend Development:** Spring Boot, Spring Security, Spring Data JPA, Spring AI, Node.js, Express.js, RESTful APIs, JWT authentication, FastAPI.
- **Databases:** MySQL, SQL, MongoDB, DBMS Concepts.
- **Tools:** Git, Linux, Postman, Figma, Docker, VirtualBox.
- **Core Competencies:** Problem Solving, Data Structures & Algorithms, Debugging, Software Architecture, System Design.

EDUCATION

B.Tech Computer Science & Engineering - cgpa: 8.95 Srinivas University, Mukka, Mangaluru, Karnataka	2022 - 2026
Senior Secondary (XII) Science YTSS PU College Yellapur, Karnataka - Percentage: 77.5%	2021 - 2022
Secondary (X) YTSS Yellapur, Karnataka - Percentage: 78.56%	2019 - 2020

PROJECTS

AI Software Architect Spring Boot, Spring AI, React, TypeScript, MySQL, Docker, Gemini AI	View
• Built an AI-powered software architecture analysis platform to analyze repositories, visualize system architecture, and generate engineering insights. • Developed a multi-language code analysis engine with dependency mapping and API discovery. • Integrated Spring AI and Gemini AI to provide architecture reviews, technical debt analysis, security recommendations. • Designed secure REST APIs using Spring Boot, Spring Security, JWT authentication, MySQL, Flyway, and Docker, and deployed the application on Railway and Vercel.	
AI-Based Knowledge Graph Platform React, FastAPI, Gemini AI, MongoDB, Cytoscape.js	View
• Developed the Programming Mode module of an AI-powered knowledge graph platform that visualizes code structure, logic flow, and dependencies. • Implemented code analysis workflows and interactive graph visualization to help users understand software architecture through AI-generated knowledge graphs. • Collaborated in a team project to build a multi-mode platform supporting query, document, and code-based knowledge exploration.	
Financial Fraud Detection System Angular, TypeScript, Node.js, Express, MySQL	View
• Built a full-stack banking and fraud detection system with Angular frontend and Node.js backend. • Designed relational MySQL schemas with triggers, views, and stored procedures for fraud monitoring. • Implemented ACID-compliant transactions, automated fraud alerts, and JWT-based authentication.	

TRAININGS / CERTIFICATIONS

- **SQL and Relational Databases 101** — IBM Developer Skills Network (14/01/2025)
- **AWS Cloud Foundations** — Amazon Web Services (AWS) (31/01/2025)
- **Java SE 21 Developer Professional** — Udemy (28/07/2025)
- **Data Science & Analytics Certificate** — HP Foundation (31/12/2024)
- **JavaScript Programming** — ETHNOTECH ACADEMIC SOLUTIONS PVT LTD, Mangalore (19/08/2023)

EXPERIENCE

Full-Stack Developer Intern On-site EyeQ Dot Net, Mangalore [May 2025 - Aug 2025] Developed MERN-based modules with JWT authentication and secure sessions, performed debugging and issue resolution to improve system stability, collaborated on testing and feature optimization in a cybersecurity environment.
Software Development Intern On-site Softionik Solutions, Mangalore [Dec 2025 - Feb 2026] Worked on feature implementation, debugging, and code improvements while collaborating with developers to deliver stable and efficient web applications.
